

Technofast Products Sugar Mill Applications

Examples of Sugar Mill Applications include:

- **Bearing Caps, Mill Roll Adjusters & Shredder Shaft Nuts**

Benefits of using EziTite Hydraulic Clamp Nuts:

- Vastly reduces downtime and maintenance problems
- Improves productivity
- User friendly & fast and easy to fit
- Repeatable accuracy of the tensioning operation reduces product variation.
- Achieves faster throughput without compromising product quality
- Minimises the risk of personal injury and collateral damage to capital equipment during blade and tool changes
- Threaded locking collar counteracts loosening forces of impact on rotating shafts.
